

## **The Best Innovation of University of South Bohemia in years 2022 – 2024**

### **JU INnovation**

**The announcer and organizer of the competition is the Technology Transfer Office**

The aim of the competition The Best Innovation of University of South Bohemia in České Budějovice is to evaluate and appreciate the best innovative product across all specializations. The application can be submitted by students, academics and scientists, postdocs and managers who are demonstrably working or studying at the University of South Bohemia.

The competition enters such innovation (product, technological process, service – that is, the whole intellectual property area, which includes both industrial legal protection and copyright protection) that is completely new and has or may have future commercial potential.

**The closing date of the competition is 30. 09. 2025**

Opportunity for consulting the applications is until 26. 09. 2025

Detailed information incl. application form are available on website [jctt.cz](http://jctt.cz)

The application must be properly filled in and sent to the [jctt@jcu.cz](mailto:jctt@jcu.cz) within the set deadline. Applications submitted after this deadline will not be taken into account.

#### **Rules:**

- The competition is open to persons demonstrably employed or studying at the University of South Bohemia in České Budějovice and are older than 18 years of age.
- Only an R&D result that is an employee or schoolwork and falls within the field of intellectual property is registered. If the submitted result is in the field of industrial law, an application must be submitted within the specified period of time for its industrial legal protection or protected at the time of entry into the competition. If the submitted result is from the area of copyright, then the date of its creation is decisive.
- The competition is open to new or significant innovation with a high added value and a high potential for market introduction (it can be an innovation that falls under either industrial or copyright protection).
- Each individual/originator may submit only one application for one outcome of science and research.

### **The Evaluation Criteria of the competition:**

- Technical level
- Originality and efficiency of the solution
- Market position
- Social benefits / sustainability

### **Rights and the duties of the announcer:**

- The competition announcer undertakes confidentiality in respect to all the information and data contained in the submitted documents.
- All information is for the purposes of this competition only.
- For evaluation purposes, the announcer shall submit proposals for awards to members of the panel of experts composed of representatives of the commercial, financial and scientific spheres.
- The evaluation jury of the competition is Commercialization Council, which is bound by confidentiality.
- The announcer reserves the right not to return the submitted award proposals in the context of this competition.
- The announcer reserves the right to cancel the competition at any time without giving any reason.

**The winner will receive a financial reward.**

The staff of the Technology Transfer Office and the Technology Scouts will be happy to provide consultations, advice and assistance in completing the application at any time.
